FOR IMMEDIATE RELEASE

Windsor Introduces The DUO Family of Carpet Extractors

Denver, CO – Windsor Industries, a Member of Kärcher Floor Care, Inc., introduces their new line of DUO Interim and Deep Carpet Extraction products.

The Commodore and Voyager DUO are innovative products with iCapsol interim cleaning, and deep extraction cleaning all in one machine. DUO machines can change from interim to deep cleaning process at the turn of a switch—no mechanical changeover is needed.

iCapsol Interim Mode

In the iCapsol interim mode, the DUO machines use Windsor's proven iCapsol Encapsulation™ technology contained in the Red Carpet iCapsol Carpet cleaner to encapsulate the soil in micro-crystals that are non-sticky and won't attract more soil. The residue is easily vacuumed at next scheduled vacuuming. With the interim method using the iCapsol encapsulating chemical, the carpet is dry and ready for traffic in approximately 20 minutes.

The Commodore DUO and Voyager DUO feature outstanding performance features including:

- Dual counter-rotating brushes for agitating and permeating cleaners into carpet nap in one pass.
- Dual quick connect spray jets set for interim and deep extraction cleaning.
- Dual overlapping vacuum shoes with glides to minimize wear to carpet and provide consistent contact over uneven surfaces.

The Commodore and Voyager DUO provide easy, exceptional maneuverability and visibility with its compact design. The design also offers a fast and simple battery exchange system option provided to extend run time.

For more information or to request a quote on the DUO family, visit www.windsorind.com.
