FOR IMMEDIATE RELEASE

Windsor Introduces The Clipper DUO

Denver, CO – Windsor Industries, a Member of Kärcher Floor Care, Inc., introduces the new addition to the DUO Interim and Deep Carpet Extraction family.

The Clipper DUO is compact, and has maximum maneuverability with a 16” cleaning path. Like the Commodore and Voyager DUO, the Clipper DUO also provides iCapsol interim cleaning, and deep extraction cleaning all in one machine. DUO machines can change from interim to deep cleaning process at the turn of a switch—no mechanical changeover is needed.

iCapsol Interim Mode

In the iCapsol interim mode, the DUO machines use Windsor’s proven iCapsol Encapsulation™ technology contained in the Red Carpet iCapsol Carpet cleaner to encapsulate the soil in micro-crystals that are non-sticky and won’t attract more soil. The residue is easily vacuumed at next scheduled vacuuming. With the interim method using the iCapsol encapsulating chemical, the carpet is dry and ready for traffic in approximately 20 minutes.

The Clipper DUO features outstanding performance features including:

- Dual counter-rotating brushes for agitating and permeating cleaners into carpet nap in one pass.
- Dual quick connect spray jets set for interim and deep extraction cleaning.
- Dual overlapping vacuum shoes with glides to minimize wear to carpet and provide consistent contact over uneven surfaces.

The Clipper DUO also offers a fast and simple battery exchange system option provided to extend run time.

For more information or to request a quote on the Clipper DUO, visit www.windsorind.com.
