FOR IMMEDIATE RELEASE

Windsor Introduces the Saber Blade 12 & 16

Denver, CO – Windsor Industries, a Member of KÄRCHER North America, introduces two new highly productive scrubbers to the Saber family.

The Saber Blade is a 12-inch upright micro-scrubber perfect for congested areas. A more hygienic and efficient alternative to mopping, the Saber Blade 12 cleans the dirt and leaves the floor dry for a quick and safe return to the area. It is also only 24 pounds and has a low 4" profile that allows the scrubber to clean almost anywhere. The Saber Blade 12 features:

- Solution tank designed to be filled at any sink
- Squeegee blades on either side of the cylindrical brush for water pick up in any direction
- Solution and recovery tank that can be removed together or separately to simplify filling and dumping
- Easy to understand controls

The Saber Blade16 is a 16-inch cylindrical automatic scrubber that is compact, yet powerful with two counter-rotating brushes with variable cleaning pressure up to 88 pounds. The adjustable cleaning pressure and variety of brushes available provides versatility for application on many different floor types. The Saber Blade 16 also has a flat, removable 2.5-gallon solution tank designed for easy filling and a solution cap that can be used as a 2-ounce solution measure. The saber Blade 16 features:

- Two squeegees for pick-up in forward or reverse
- Easy to understand control system with ergonomic handle
- No tool brush and squeegee removal
- Handle folds down for compact, easy storage
