CASTLE ROCK EXECUTIVE DOWNUNDER

Jeff Hanko, Executive Vice President - Operations for Castle Rock Industries, visited dealers in Singapore, Australia and New Zealand during February as part of Castle Rock's ongoing expansion and support program for Windsor dealers in this region. Castle Rock Industries (CRI) is the parent company of a number of leading equipment brands, including Windsor, Prochem and Century 400.

In Australia, Jeff met with Brian Clark, CRI's Regional Account Manager and the management team at *Campbell Cleantec*, the Windsor distributors for the Australian market. Jeff then travelled on to New Zealand where he met with management of *Clark Equipment New Zealand*.

"Windsor have a large number of innovative new equipment releases planned for 2005, starting with the Industry's first Stand-up rider scrubber, the Windsor Chariot," says Hanko. "The Chariot will be released in Australia in early June and in New Zealand at Clean NZ in May"
