Windsor Introduces the NEW Chariot iScrub 24" & 26"

Denver, CO – Windsor, a Member of KÄRCHER North America, has taken the industry's first stand-up platform automatic scrubber, the Chariot iScrub, and made it even better. Providing more productivity and ease of use, Windsor introduces the next generation of Chariot iScrub—with added value, and at less cost.

The Chariot iScrub 24" disc scrubber and 26" cylindrical scrubber features:

- **New:** clear, simple control panel significantly reduces training time and provides more consistent results.
- **New:** cleaning function control switch easily allows the operator to select the appropriate transport or cleaning mode.
- Ability to clean in tight, congested spaces.
- Full circle visibility for operator safety.
- Easy to transport around the building and clean anywhere.
- Fits easily into any elevator.
- Increases productivity by up to 50%.
- Reduces operator fatigue.
- **New:** cylindrical model provides adjustable speeds for different cleaning applications.

The Chariot iScrub also introduces a new function called EcoMode. With many facilities focusing more on day cleaning, the iScrub was designed with features to accommodate an in-use environment. Features like significantly reduced sound (63 dBA), swinging squeegee that leaves floors dry and safe after use, and conservation of water and battery life that extends cleaning time and productivity.

For more information, or to request a quote on the new Chariot iScrub 24" disc or 26" cylindrical automatic scrubber, visit www.windsorind.com.
